volume; pages; date of publication; A bibliography may be arranged by author, topic, or some other scheme. Annotated bibliographies give descriptions about how each source is useful to an author in constructing a paper or argument. These descriptions, usually a few sentences long, provide a summary of the source and describe its relevance.

Bibliography - Wikipedia

The additional parameter `title={Whole bibliography}` passed inside brackets to the command `\printbibliography` is the one that changes the title. The bibliography can also be subdivided into sections based on different filters, for instance: print only references from the same author, the same journal or similar title. Below an example.
