Producing a resolution is, therefore, almost the sole aim of a Model UN debate, and it is a central document for the conference as a whole. However, since it is an official legal document, a resolution has to follow an arguably strict format before it can reveal the brilliance of its contents and let the ideas behind it shine through.

How to Write a MUN Resolution (Guide) - WiseMee

You need to change the display resolution. Your model is good, it's just that the display engine for shaded models uses a faceted display and what you're seeing is the result of that. This can occur if you 'zoom in' too close. Try Regenerating the display. John R. Baker, P.E. (ret) EX-Product 'Evangelist' Irvine, CA Siemens PLM: UG/NX Museum:

model resolution - Siemens: UG/NX - Eng-Tips

The Satir change model is fairly similar to Kübler-Ross', except it applies the progression through the five stages of grief to a general model of performance during the change. In this sense, it's a way of predicting and tracking the effect of changes on overall performance.
