Any number of ingredient combinations can churn out a different beer based upon the brewing process. Similar to styling by location, styling by ingredients in the brewing process can be difficult as well. It has become even more complicated with the introduction of hybrid beers. A Breakdown of Common Beer Styles

An Introduction to the Confusing World of Beer Styles

Beer will flow through the hose and into the keg via the dip tube, and the CO₂ in the keg will bubble through the sanitizer as it is displaced by beer. Allow the keg to fill with beer, and then shut off the CO₂. Now you have a keg full of uncarbonated beer to which very little oxygen has been introduced. Carbonation &
