Bitcoin for the Befuddled - PDF eBook Free Download

So how many bitcoins might a typical Bitcoin user own in this future world? Given that 20 million bitcoins would be in use in 2030, on average each person would own 0.02 bitcoins. Of course, wealth is never evenly distributed, and in all likelihood the top 1 percent would own more than 50 percent of the bitcoins (unfortunately, Bitcoin is unlikely to solve this problem on its own).
