Only an initial section on tools... the rest is about boat interiors and is more than just interiors. Even a section on electrical systems, water systems, and soundproofing the engine compartment. Every thing that is included in the interior is covered. Great idea and design book.

Amazon.com: Customer reviews: Boat Interior Construction ...

A boat house needs to provide the very basics of living. You don't need luxurious quarters when you can float on the water! Consequently, a small boat house with a sturdy construction and quaint rooms is enough for any use. Apart from the material design and the base structure, everything can look just like a real home on land.

I don't have the patience to fair and sand the interior of this 50' x 25' boat. I also don't have the patience or funds to make every cabinet and piece of built in furniture out of foam/glass/epoxy. I went with 1x2" stick frame construction for the interior, using door skin plywood with waterproof glue laminate.
