It is very thin (144 pages) and at least one third is filler material including a reproduction of a Coast Guard document and brochure write ups about Brewer's designs. There are three pages for the amateur boat builder which are nearly worthless. The remainder is very general information. Amazingly my copy was a 4th edition.

Du Plessis Book, the Fifth Edition. By Paul Lazarus, Mar 28, 2016. Previously on Proboat.com we posted an article of mine about the 5th edition of The Gougeon Brothers on Boat Construction—widely considered the definitive manual on wood-epoxy composite construction. Among other things, that article looked at the book's place within the context of boatbuilding-related technical publishing ...
