Any tractor pull may be called the ultimate contest between the proverbial immovable object and the irresistible force. However, National Tractor Pullers Association leads the way in brute force with jaw-dropping displays of supreme horsepower. The object of pulling is to pull the weight, which becomes progressively heavier via a machine called a sled, down the track as far as a competitor and their machine can take it.

This is an open modified truck class available to owners of trucks that have been specifically built for pulling. Trucks may be hauled to the pulling site. The provision for 'bumping up' from other FWD CLASSES lies with the head official and may or may not be available at every event. Weight and Hitch Height (FWD Trucks) :

Tractor Pull - Dragway 42
Acceleration (drag racing) or heavy pulling takes low-end torque. Antique tractor pulling is "supposed" to be done at Stock rpm so you either need a large cubic inch engine like a two-cylinder John Deere, or a smaller engine with higher compression to generate more torque, which translates into more horsepower at its rated rpm.
